[REDACTED] called Norma about Mr. [REDACTED] requesting immediate decision as to diagnosis. I called Dr. [REDACTED] who could not recall the final disposition of the case but indicated that he felt the X-Rays showed healed fibrosis. He stated that the supplemental tests at Garfield Hospital would not be completed for another month. In view of the undeterminate nature of the problem, I left word with [REDACTED] suggesting subject be returned home pending final results.
